

**Invited Session on  
Microwave and RF Education  
will be organized within  
MMS'2010  
Mediterranean Microwave Symposium  
25-27 August 2010  
Guzelyurt, Northern Cyprus**

The 10<sup>th</sup> edition of the Mediterranean Microwave Symposium (MMS'2010) will be held in the beautiful Mediterranean island of Cyprus, in August 25-27, 2010. Middle East Technical University-Northern Cyprus Campus (METU-NCC) located in the West of Cyprus is proud to host MMS'2010.

An Invited Session on Microwave and RF Education will be organized within MMS'2010. The objectives of this invited session include the presentation of challenges and difficulties encountered in Microwave and RF education for both undergraduate and master programs, issues related to education and continuing education of microwave and RF engineers, discussion of approaches and techniques related to microwave and RF educational topics, and technology-aided microwave and RF educational development tools. Web-based and web-assisted microwave and RF education: what is available today, what needs to be done, and how could educators in microwave and RF area make use of web technology, could be discussed in this invited session.

Microwave and RF educators, MTT-S members, and others are invited to contribute to the invited session on Microwave and RF Education and share their thoughts.

Please contact Dr. Khaled Yazbek ([khaled.yazbek@hiast.edu.sy](mailto:khaled.yazbek@hiast.edu.sy)) with your papers, ideas, proposals, and suggestions for contributions to or comments on Microwave and RF Education.
